Exercise for Unit 10

Kenneth I. Joy
Institute for Data Analysis and Visualization
Department of Computer Science
University of California, Davis

Problem 1

Draw a scene containing the egghead outside the UC Davis Shields Library. The egghead should be looking into an IPad. The more realistic the image, the better the grade.

________________________________________________________________________

Email your code and resulting pictures, along with a description of the control points used to make the pictures, to the Instructor for the course.
