

Assignment 2: Write an RSS reader

Due: 4PM October 26, 2009

Specifics: Write a simple RSS feed reader using navigation controllers and table views. You must have at least the following three screens:

- Main screen
 - Section headers list name of feed
 - Rows in section list titles of available articles
- Detail Screen
 - Article title
 - Show some content from the article (screenful of content from the <description> tag)
- Web View
 - Display the full article in a UIWebView

Here are a few links to test with:

<http://hiddenelephant.com/blog/?feed=rss>

<http://gamesfromwithin.com/?feed=rss>

<http://rss.slashdot.org/Slashdot/slashdot>

Hints:

- Use NSXMLParser to parse the rss feed
- Look for <item>, <title>, <link> and <description> tags
- Use FireFox to view feed XML
